CAMPAIGN DIRECTOR HAS AGAIN DECLINED

WILSON REGRETS M'COMBS' ACTION

Appreciates Force of Reasons For Declining Paris Post.

WON'T PRESS OFFER FURTHER

Holds It a Great Pity That the Country Has to Ask Sacrifices of Those Who Are Invited to Serve It Abroad, and Chafes at Belief That Only Rich Men Can Afford to Accept Foreign Posts.

Washington, March 24.—A statement made public at the White House makes it plain that President Wilson will not again urge William F. McCombs, chairman of the Democratic national committee, to accept the office of ambassador to France. This affair is a closed incident as far as the president is concerned. The president expresses regret that acceptance of the appointment was impossible. He says:

"I am very sorry indeed that Mr. McCombs can not accept the appointment to France. I was particularly anxious that he should. My admiration for his ability, my knowledge of his singular capacity for grasping complex situations, my confidence in his tact and resourcefulness as well as my affection for him and the intimate relations that of course exist between us, combine to make my disappointment very great indeed. But I of course appreciate the force of the reasons he gives. He would have accepted at an unreasonable sacrifice and I could not further press the offer upon him. It is a great pity that the country has to ask such sacrifices of those who are invited to serve it abroad—a service which every year becomes more exacting and more important. The sacrifice of time, of means and of opportunity at home is

DR. F. F. FRIEDMANN

Discoverer of Serum For Treatment of Tuberculosis.

© 1913, by American Press Association.

Dr. Friedmann was snapped as he left one of the city hospitals in New York after treating a score of children crippled by tuberculosis of the bone. He was cheered by admiring crowds. He is indicated by an arrow. He is carrying his secret serum in a small medicine case.

NO OFFICIAL REPORT YET

Condition of New York Patients Treated by Doctor Friedmann.

New York, March 24.—Whether or not the patients treated by Dr. F. F. Friedmann at the Hospital for Deformities and Joint Diseases are any better, is a question that can not be answered yet, said Dr. H. C. Frauenthal of the hospital. He stated that he believed whatever relief these tubercular sufferers had experienced was the result of hypnotism. "The treatment," he said, "caused a sort of hypnotic anesthesia from which they have not recovered yet."

One of the apparently physical symptoms which Dr. Frauenthal was able to comment on regarding his patients was the fact that in one or two cases the temperature had fallen from 102 to normal and had remained there. This is unusual, for Dr. Friedmann himself has always warned patients that for a few days their temperature would rise.

MUST NOT BE TOO MUSHY WHEN IN PUBLIC

MUST NOT KISS ON STREET

Married Couple Twice Arrested On Wedding Anniversaries.

Yonkers, N. Y., March 24.—Not even on their wedding anniversary may fond Yonkers couples show their affection by kissing and hugging each other in the streets. Twice have Mr. and Mrs. Robert McAleese found this out. Although the couple are about 45 years old, sentiment is not forgotten, especially on anniversaries. On their twentieth anniversary, a year ago, the couple were arrested by Policeman Waldron for hugging each other on the street. Yesterday, their twenty-first anniversary, they were again arrested, the policeman declaring their osculatory demonstration was so ardent it attracted a large crowd. The pair was released under suspended sentence.

WANTS CATS MUZZLED

Jersey Woman Declares Their Nocturnal Noise Is a Nuisance.

Montclair, N. J., March 24.—Mrs. Frances E. Lord has asked Mayor Hinec to issue an edict requiring that all cats in the town be muzzled. Mrs. Lord says that the noise made by the cats is a nuisance. In her letter, however, she does not say how muzzles will stop their outcries, and Mayor Hinec does not think the scheme practical unless some inventor comes forward with a muzzle having a silencer attached.

STATE EXPECTS AN INDICTMENT

Grand Jury Begins Probe Into Death of Admiral Eaton.

WIDOW IN JAIL NOT ALARMED

Impression Gone Abroad That the Admiral Was Killed by White Powdered Arsenic Administered in Pure Form a Mistaken One, According to the District Attorney, Who Discusses the Mysterious Case.

Boston, March 24.—Interest in the Admiral Eaton poison case now centers in the grand jury proceedings which began at Plymouth today. A great many neighbors of the Eaton family in Assinippi have been summoned as well as Mrs. Eaton's two daughters, June Ainsworth Keyes and Dorothy Ainsworth, her mother, Mrs. George Harrison, and various state and county officials who have worked on the case.

It is expected that an indictment will speedily follow the presentation of such evidence as District Attorney Barker sees fit to present. There is a strong likelihood that the testimony of certain witnesses will not be heard by the grand jury. The district attorney intimated as much when he said that "it is not always necessary to present all the evidence to secure an indictment." He admitted, however, that a "good many" people would be called upon to tell their stories of the family life of the Eatons and also to relate any conversations which Mrs. Eaton or the admiral may have had with them.

When asked about the constantly repeated rumors that insanity proceedings might be asked for by the government, Mr. Barker refused to

WORK OF DUELLISTS

Bodies of Four Persons Found in Ruins of Country Home.

Williamstown, N. J., March 24.—The charred bodies of four persons were found in the ruins of Leo Wharton's home on the Brooklyn road, a mile and a half from here. The house was burned after the victims had been shot. The dead are: Leo Wharton 40; his wife Mary, 32; their five-year-old daughter Lillian and John Kenthill, foreman on the farm of Elizabeth Stanger, a retired schoolteacher. The police theory is that Wharton and Kenthill, who was a bachelor, engaged in a duel in the cellar, and the man who won then fired the house after he had murdered the wife and child, so as to hide the crime, and then burned himself to death.

Prayers of Eastertide Offered Up For the Pope's Recovery; Much Speculation as to His Successor.

Prayers were offered up during the Easter season for the recovery of his holiness Pope Pius X. Since the first reports of the pontiff's grave illness came speculation has been rife as to who would be his successor in the event of his death. It was widely reported that the election would probably place an Italian in the Vatican again. Alarm was caused owing to the pope's reported inability to say mass on his name day, an act he had not previously failed to perform since his ordination as priest. Above is an interesting picture of his holiness.

Gallipolis, O., March 24.—When a brakeman, as alleged, neglected to close a switch at Kanawha Junction, four miles north of Gallipolis, southbound K. & M. passenger train collided head-on with another passenger train standing in the siding. Eighteen persons were injured, none fatally. All were brought to a Gallipolis hospital. The most seriously injured person was the baggage-master of the northbound train. Both locomotives were demolished.

EX-PRESIDENT DELIVERS TALK TO SOUTHERNERS

Here Goes Splendid Bargain From The Counter

\$3,000,000 GIRL TO WED

Under Terms of Will She Must Marry and Have Issue.

Boston, March 24.—Wedding bells, it is said, will soon be ringing for Miss Mary Belle Shedd of Lowell, the most-talked-of woman in Middlesex county. Under the terms of the will of her father, Freeman B. Shedd, Miss Shedd will lose about \$3,000,000 unless she marries and has children. As soon as this became known the young woman was deluged with marriage proposals. These offers continue to arrive, but it is rumored that the daughter of the late millionaire perfume manufacturer of Lowell made her choice some time ago. This will save the letter carriers. Miss Shedd is sole executrix of the will, which takes the disposition of her father's immense estate out of her hands unless she becomes a mother.

RIDICULES DEPORTATION IDEA

Compliments the Race On the Wonderful Progress It Has Made Since Its Members Were Brought Over From Africa In an Uncivilized State—Addresses Negroes in Georgia City.

Augusta, Ga., March 24.—Ex-President Taft, Dr. Nicholas Butler, Dr. David Gregg and others addressed a large audience in the Tabernacle Baptist church. The tabernacle is a negro church, and Dr. C. T. Walker, the eminent negro minister, is its pastor. The purpose of the meeting was to raise funds for an institutional church which Dr. Walker expects to build. Quite a large sum was raised.

Mr. Taft gave the negroes a heart-to-heart talk. He complimented them upon the wonderful progress they have made since the time that they were brought over from Africa in an uncivilized state, and said while everyone now condemns slavery, still because of slavery, as horrible as it was, had not this been done the negro race could not have advanced as rapidly as it has.

KEPT THE CHANGE AND HIS CUSTOMER CAUSES MAN'S ARREST

Arrested But Is Mysteriously
Released From Prison By Com-

It pays to return the correct amount of change when a deal in bootleg whiskey is made, is a thing learned Saturday night by at least one man.

Saturday night Grant Dawes appeared before Mayor Smith and filed an affidavit against Til Taylor, colored, charging him with bootlegging, and it developed, according to the story told by Dawes, that he had purchased a quantity of whiskey from Til Taylor, and gave him \$1, expecting a certain amount of change in return. His expectations were doomed to disappointment, according to his story, Taylor refusing point blank to return the change demanded, whereupon Dawes filed the affidavit charging his source-of-supply with illegal trafficking in whiskey.

Chief McCoy placed Taylor under arrest and conducted him to the city lock up and left him for the night. Sunday morning while the police were absent from the city prison, some one secured the key and released Taylor, and when Chief McCoy returned the bird had flown and so far has not been located.

The arrest of the man who released Taylor may be made at any time, and a severe fine assessed against him for his part in aiding an offender to escape justice.

Ziegler Released Under Suspension

\$100 and the costs is the amount given Harry Ziegler for carrying concealed weapons and threatening his wife with death.

Ziegler has been in the county jail several weeks, and had been bound over to the grand jury. However, upon his willingness to plead guilty he was taken before Mayor Smith Monday morning, entered a plea of guilty, and drew the above fine, which was suspended providing he leave the county and never return, and as long as he behaves himself.

Ziegler was glad to go, and lost no time in returning to Springfield, where a like sentence is hanging over him.

Last week his wife sued him for divorce. He is the man who went to the home of his wife's parents at Good Hope and threatened to kill his wife. He carried a loaded revolver at the time.

Former Cashier Will Hoe Potatoes

Nolan L. Gartner, former cashier of the Kingston bank, has been transferred from the penitentiary to the State Farm at Orient, where he will assist in the agricultural work carried on at that institution.

The state has a number of places where the prisoners are permitted to work on the honor plan, and last summer 150 prisoners worked on the Orient farm. As a rule very little difficulty is experienced with the men, who much prefer to work in the open than behind prison walls, and rarely ever attempt to escape.

The President's Patronage Limited

The patronage of the president is not as large as most people presume. In the civil branch of the Government there are less than 11,000 people directly depending upon him for appointment, and nearly 9,000 of these are Postmasters of the first, second and third classes. While he has the power to remove practically every one of the more than 400,000 employees in the executive service, his appointing power is limited to less than 11,000 offices.

It affects about 450 people under the State Department, practically all of these being in the diplomatic and consular service; some 750 in the Treasury Department, the majority of them Collectors of Customs and other public officials; some 400 in the Department of Justice, the majority of them being United States District Attorneys, Marshals and the like. He has only about a dozen people to appoint in the Navy Department, 275 in the Interior Department, about a half dozen in the Department of Agriculture, and less than 50 in the Department of Commerce and Labor. He also has the power of appointing members of many of the big commissions, the Librarian of Congress, the Public Printer and a number of other important officers.

All of these appointments can be made only "with the advice and consent" of the Senate. In addition to these there are approximately a thousand positions, the majority of them of minor importance, which he fills without the confirmation of the Senate.

The change of administration does not represent such a general shaking up among the several departments of the government as it did even 16 years ago, and is totally different from the changes which occurred in the flowery days of the "spoils system." The Civil Service Commission is regarded as supreme in the appointment of more than three fourths of the people in the employ of the Government, and of the remaining positions a large proportion are simply unskilled labor jobs which are never affected by change of administration.

The Treasury Department, for instance, had at a recent date 27,879 employees on its rolls, and out of these 27,093 were under Civil Service rules. In the Interior Department there were 14,262, of whom 13,938 were under Civil Service rules. The Department of Commerce and Labor had 14,883 employees, of whom 14,797 were under the Civil Service—Everybody's Magazine.

Will Give Away 50,000 Trees

As in the past two years, the school children of neighboring towns and villages, as well as those in many of the country districts of Pickaway and adjacent counties, will receive free trees from the F. & R. Lazarus & Co., of Columbus, for Arbor day planting.

About 50,000 American Elm and Box Elder seedlings set out last May on the Ohio State university farm, will be distributed to the children on Arbor day, which, in accordance with the governor's proclamation comes this year on Friday, April 4.

The department of forestry of the Ohio State university has given the seedlings good attention during the fall and winter, and as a result, the children will receive better trees than ever before, this year.

It is far better to make your mark in the world than it is to be an easy one.

Pair Fined For Intoxication

Hays Taylor and Orla Easton, both entered pleas of guilty to intoxication when arraigned before Mayor Smith Monday morning, and received the usual anti-toxin of \$5 and the costs.

The surprise started about New Martinsburg where he was presented with a basket containing chicken, eggs, potatoes, canned fruits and other articles.

GRACE CHURCH REVIVAL COMES TO CLOSE WITH OVER 275 DECISIONS

Remarkable Services Held Sunday When 25 Take Stand for Christ and Large Classes Are Received Into the Church. Men's Bible Class Contains More Than 300 Members.

The Grace church revival came to a close Sunday night after one of the most successful series of meetings ever held in the city during which some 275 persons took the stand for Christ.

Every available foot of space was occupied at the last service by what is claimed to be the largest crowd that ever occupied the edifice, and scores were unable to gain admission. Seventeen persons responded to the final call for converts, making a total of 25 during the day.

At the morning services a class of 97 was taken into full connection with the church, 27 were received on probation and 18 were received by letter. The baptismal services occupied the regular preaching hour in the morning. Only part of the Easter music was rendered during the services.

The attendance at Sunday school was 623—a record breaking number and the Sunday school collection amounted to \$186.50. Mrs. D. H. Rowe's class of young women numbered 104 and the Men's Bible class reached 135, with 24 new members added, making a total membership of over 300 and still growing.

The afternoon meeting of men was attended by some 250 men, and Rev. Ross addressed them on "The Man Who is Losing Out," and responding to his appeal at the end of the address seven well known men announced their intention of living better lives. It was a remarkable meeting, and more than one man broke down and sobbed.

Next Sunday afternoon another men's meeting will be held, and will be addressed by the pastor who will speak upon some live topic.

During the remainder of this week, with the exception of Thursday night he will preach at Wesley Chapel in the southern part of the city. Thursday night a meeting will be held in the main auditorium of Grace church.

Farewell Luncheon For Rev. Campbell

Some ten members of the Fayette County Ministerial Association met at the Y. M. C. A. Monday forenoon and after hearing a very interesting treatise from the pen of Rev. W. I. Campbell and discussing the same at some length, enjoyed a chicken luncheon given in honor of Rev. Campbell, who is soon to leave for other fields of work.

Following the luncheon Rev. Campbell was called upon for a speech and responded, speaking for several minutes concerning his work in this city and expressing deep regret that he was so soon to leave this field of work.

Following Rev. Campbell's remarks others were called upon and responded with appropriate words for the occasion.

Changes Houses

Mr. M. E. Hitchcock, who for nine years has been traveling for the Dayton branch of the Charles C. Higgins Wholesale Grocery Company, received notice Saturday that he would be transferred to the Columbus branch.

The transferral will not cause him to change his residence in this city, however, even though his territory has been increased. The change comes in the nature of a promotion.

More Complaint About Thieves

More complaint has been made by farmers in eastern and southern Fayette about a junk buyer stealing various articles from premises of many farmers.

One of the more recent complaints is made by Mr. Orris Hegler, where the junk buyer deliberately hauled off several bushels of corn. When the discovery was made the fellow was quickly overhauled and forced to pay for the corn.

This was probably the same thief, who, under the guise of a junk buyer, recently stole pieces of machinery from a farmer on the Circleville pike and was forced to return the same. The fellow was from New Holland, it is claimed.

Some of the farmers claim that if they catch the fellow in his nefarious work, they will not content themselves by forcing a return of the stolen articles, but will prosecute him as he deserves.

IN SOCIETY

The Cincinnati Enquirer of Sunday contains an account of the Ball-Steece wedding on March 20th at the home of the bride in Ironton, a wedding of interest to many Washington friends of the bride:

"A beautiful wedding, more than usually attractive on account of the prominence of the families primarily interested, was that of Miss Helen Steece, second daughter of Mr. and Mrs. S. B. Steece, and Mr. Thomas Morrison Ball, a prominent young business man of Cincinnati. The wedding took place at 7 o'clock Thursday evening at the bride's home. Rev. Townsend, of the First Presbyterian church, was the officiating minister. The old homestead was magnificently decorated in a color scheme of white and green. Easter lilies, narcissus and potted plants artistically decorated the whole home. Miss Helen Steece, who is conceded to be the most beautiful young lady in Ironton, was attired in white chiffon, embroidered in gold over white satin. She carried lilies of the valley and orchids. Mr. Thomas Morrison Ball, one of the rising young business men of Cincinnati, is connected with the insurance business. After a wedding journey east they will reside at Avondale, Cincinnati. At the bride's table were Mr. and Mrs. Thomas Morrison Ball, Mr. and Mrs. Robert Palmer of Cincinnati; Mr. and Mrs. Ned Poage of Ashland, Mr. and Mrs. John Lowe of Columbus, Mr. and Mrs. W. N. Potts, Mrs.

J. K. Richards, Miss Mabelle Butcher, Miss Polly Clarke and Mr. Will Crawford."

A beautiful seven o'clock dinner was given Saturday night for Mr. and Mrs. Damon Baker upon their return from a short wedding trip. Mr. and Mrs. Brakefield entertaining in honor of their daughter.

There were twenty guests who showered good wishes upon the pretty white robed bride, and her bridegroom. The table was effectively decorated with pink and white carnations and greenery.

Mr. and Mrs. George Baker delightfully entertained thirty-five guests Sunday at an elaborate course dinner in honor of their son, Mr. Damon Baker and his bride.

The dinner was characterized by Easter appointments and the Easter idea carried out in decorations of much beauty. Forming the centerpiece of the long table was an immense cluster of daffodils on a table mirror embedded in smilax and resting on the smilax were fluffy little yellow chickens. Tiny Easter rabbits, tied with yellow ribbons, were the guest favors.

Overhead broad yellow ribbons formed a graceful canopied effect and the buffet was banked in yellow flowers and green.

The bride was looking lovely in blue brocade charmeuse, with gipings of Nell rose, and received the good wishes of the guests with becoming blushes.

Mr. and Mrs. Baker will temporarily divide their time between the homes of their respective parents.

Miss Wanda Chase, Mr. and Mrs. Chas. Baughn and daughter, Milliecent, Mr. Floyd Baker, of South Charleston, and Miss Hazel Fultz, of Leesburg were out-of-town guests.

Mr. and Mrs. Carey Parrett entertained with an enjoyable dinner at their Bloomingburg home Sunday. Among the guests were Attorney Scott Bonham, of Cincinnati; Mr. and Mrs. Thos. Parrett, daughter, Miss Fantie, south of town; Miss Dora Hays and Dr. Loring Brock, of this city.

The Men Who Think

That the safety of all free institutions in a government of the people abides with the people who think, is a fact universally acknowledged to be true.

When people cease to think, in the more comprehensive sense, about the questions of government and confine their time to and concentrate their attention upon matters of private and personal interest, to the exclusion of matters which affect the public, their free institutions are in danger.

Unfortunately the human family has not yet reached that happy time when there are no men living who would pervert the institutions of government and use that form designed to benefit mankind as an instrument for oppression.

That truism applies to nation, state and municipality. If the good men—the responsible men, the men most vitally interested in the success of a community, do not devote to that community, as such, the time and thought necessary to preserve its integrity as a working force for the benefit of all, it will drift into the hands of those who will not only cheek progress but make the local government a means to further their own selfish ends.

It is the solemn duty of the press to lay before the busy man of affairs the vital facts uncolored by bias or prejudice, in order that he may watch the trend of events and keep his finger on the public pulse.

When men are told by reliable authority the facts of the day's and week's happenings they cannot fail to think and thinking will act when duty calls.

Busy men of the world have neither the time nor the inclination to hunt up the facts, which are the true barometers of conditions and which map out the governmental currents. Thinking men of affairs will early see the trend from an honest resume of facts and when any publication has succeeded in laying reliable facts before the men who do things in any community a work of which it may well feel proud may be said to have been accomplished.

It is the men who think who do things in this world—who make progress certain. Public business can no more succeed unless the men interested give it thought and attention than private businesses can.

If the city is to advance the men interested must give its affairs thought and not abandon it to the mercy of incompetents nor to those who are worse than incompetents.

Every community must look after its own affairs or stagnation of business will certainly come.

Co-operation Will Reduce Cost of Living

By CHARLES R. VAN HISE, President of the University of Wisconsin

THE question of prices for commodities to the producer and to the consumer is a fundamental one, not only to those engaged in industry, but to the farmer. The recent attempts to remedy the defects in the present system have been by disintegration of the so called trusts. A number have been dissolved or reorganized.

I know of no instance of a standard article produced by a trust in which the price has been DECREASED because of the disintegration of such trust. This being the situation, it is hard to see what advantage the general public has gained by the dissolution of the trust.

IT IS CLEAR TO ME THAT THE SOLUTION OF THE PROBLEM CONSISTS IN PERMITTING CO-OPERATION AND WITH CO-OPERATION IMPOSING PUBLIC CONTROL.

Future development, both with the farmers and with industry, must be along the lines of CO-OPERATION AND CO-OPERATION IN SUCH A MANNER THAT THE PRODUCERS WILL RECEIVE A FAIR PRICE FOR THEIR PRODUCTS and at the same time the consumers secure them at a fair price. The working out of a satisfactory marketing system between the FARMERS AND THE CONSUMERS will be a difficult problem. The solution will be different for some commodities than for others. However, sufficient progress has been made to show that the problem can be successfully solved.

Investigation regarding comparative prices received by the farmers and paid by the consumers show HOW GREAT IS THE MARGIN IN THE TRANSFER FROM ONE TO THE OTHER. This is especially true for perishable goods.

Poetry For Today

UNREST.

To bide at home is sweet;
For love is there, and warmth is there, and little, pattering feet
Wide hearth is there, soft arms are there, low songs that lull to rest,
Low slumber songs that purr and croon, and hum that home is best.
The gracious ways of smiling days make sunshine through the rooms;
And ah, the little lulling laughs that scare away the glooms!
Still strains, the tugging at the heart, the lure, the longing, sore;
The strenuous song that whispers: "Come; the world is at your door."

To roam the world is sweet:
Blue skies are there, tossed seas are there, and unguessed friends to greet,
Long, luring golden roads are there, and forests cool and deep.
Low-laughing silver streams are there, wherein the Naiads leap
The roaring towns, the ups and downs; it's Life; it's joy, a thrill.
The comrade wind is bluffly kind. Now—is the longing still?
Nay; still there's longing in the heart; the tug, the anguished call;
"Come; there is rest and love at home; yes, love—and love is all."

Xenia Is Short Of School Funds

The Board of Education of Xenia has discovered that it is short some \$7,000 in funds for the coming term, and that as a result it may be necessary to eliminate school for some six weeks.

The one per cent tax law has been causing the city of Xenia a great deal of hardship, and since the school fund has become so low it will be necessary to issue bonds and raise the money, or not hold school for the six weeks.

Following the death by electrocution of a lineman employed by the Sidney Telephone company, the other linemen working for the company have resigned. At the beginning of the year there were 4 linemen employed by the company. Two of these have been killed by electrocution by coming in contact with the high tension wires of the Sidney Electric Light Co. on the same poles with the telephone wires. The remaining two men expressed the feeling that they were sure to be electrocuted if they remained in the employ of the Telephone company.

Much to the disappointment to all the G. A. R. men in this region, as well as citizens generally, the Dayton Chamber of Commerce has decided not to invite the National Encampment of the G. A. The large sum of money, necessary to insure the success of the encampment would be difficult to raise and besides a large amount of cash is needed to satisfy the promises previously made to other organizations holding conventions in Dayton this summer. Toledo also considered making an invitation but came to the same conclusion for the same reasons as Dayton.

Hartman Theater

Kitty Gordon in "The Enchantress."

Kitty Gordon, called by Rodin, the sculptor, the most beautiful woman on the stage will try to have patrons of the Hartman theatre, Columbus verify the opinion of the artist, when she appears at the Hartman Monday, Tuesday and Wednesday, March 31, April 1 and 2, in "The Enchantress", a comic opera by Victor Herbert.

Victor Herbert, it is said, has written the operetta in a delightful vein. The score of "The Enchantress" has the distinction of having been produced in Vienna last spring by Adolph Burt. "The Enchantress" is a genuine light opera woven around the love story of a gay young crown prince of a mythical kingdom, a story brimming with humor and amusing situations.

Joseph M. Gaites, the producer, has made a lavish production, a brilliant and colorful spectacle both through scenery and rich costuming. Yet the greatest charm of the operetta lies in its music. Unusual care has been taken in selecting a singing chorus. There will be a matinee of "The Enchantress" on Wednesday.

The Easy Laxative

In justice to yourself you should try Rexall Orderlies,—your money back if you don't like them. They are a candy confection that really do give easy relief from constipation.

Good health is largely dependent upon the bowels. When they become sluggish the waste material that is thrown off by the system accumulates. This condition generates poisons which circulate throughout the body, tending to create coated tongue, bad breath, headache, dull brain action, nervousness, biliousness and other annoyances.

Avoid harsh cathartics and physics. They give but temporary relief. They often aggravate the real trouble. They are particularly bad for children, delicate or aged persons.

Rexall Orderlies

Come in tablet form, taste just like candy and are noted for their easy, soothing action upon the bowels. They don't purge, gripe, cause nausea, looseness, nor the inconveniences attendant upon the use of purgatives. Their action is so pleasant that the taking of Rexall Orderlies almost becomes a desire instead of a duty.

Children like Rexall Orderlies. They are ideal for aged or delicate

persons as well as for the most robust. They act toward relieving constipation, and also to overcome its cause and to make unnecessary the frequent use of laxatives. They serve to tone and strengthen the nerves and muscles of the bowels and associated organs or glands.

Make Us Prove It

We guarantee to refund every penny paid us for Rexall Orderlies if they do not give entire satisfaction. We ask no promises and we in no way obligate you. Your mere word is sufficient for us to promptly and cheerfully refund the money.

Doesn't that prove that Rexall Orderlies must be right? You must know we would not dare make such a promise unless we were positively certain that Rexall Orderlies will do all we claim for them. There is no money risk attached to a trial of Rexall Orderlies, and in justice to yourself, you should not hesitate to test them.

Rexall Orderlies come in convenient vest-pocket size tin boxes; 12 tablets, 10c; 30 tablets, 25c; 80 tablets, 50c.

CAUTION: Please bear in mind that Rexall Remedies are not sold by all druggists. You can buy Rexall Orderlies only at The Rexall Stores. You can buy Rexall Orderlies in this community only at our store:

Ex-President Delivers Talk to Southerners

(Continued from Page One.)

Mr. Taft said he could understand how the people of the south felt when it was proposed to free their slaves, because slavery was an established institution which was founded by them in their state constitutions, and he paid a splendid tribute to the negro slaves who stayed at home and looked after the welfare of their masters' families while the war was in progress.

"The white people of the south are the negro's real friends," said Mr. Taft, "an while we of the north can aid you in every way that we can, still the people of the southland are your devoted friends and among whom the majority of you live and have your being."

Mr. Taft ridiculed the idea of deporting the negro to Africa or anywhere else, and said that he was doing all right where he is. Discussing happiness, Mr. Taft said that the negro race is one of the happiest and most cheerful of all races. He predicted greater and greater economic progress for the negro race.

OHIO HAPPENINGS

NAVY TO TRAIN COLLEGE YOUTHS

Summer Cruise Plan to Instruct In Sea Service.

DO NOT HAVE TO ENLIST.

But Must Pledge Compliance With All Orders and Regulations—Most College Heads Heartily Approve of It. Initial Cost Not Over \$22 For the Men—Must Be Over Eighteen.

Washington.—The navy department is preparing a plan in co-operation with college presidents for the training of their students during the summer months on board its ships, with the object of increasing and improving the personnel of the reserve available in emergency. Captain C. O. Marsh, U. S. N., in a letter to the various colleges, outlines a general order to be issued by the secretary of the navy.

"Students recommended by the proper authorities of the institutions where they are pursuing courses," says Captain Marsh, "will be embarked in battleships and armored cruisers in full commission—not more than twenty students to one vessel—for a training period of about two months' duration. They must have completed two years or more of their courses and be not under eighteen years of age. One of the senior line officers of the ship will be designated in charge of the students. They will not be enlisted, but each one will be required to bind himself to observe the laws and regulations of the navy and of the ship and to obey the orders of all persons placed in authority over them.

"Training will be given in the engineer department, electrical department,

JOSEPHUS DANIELS, SECRETARY OF THE NAVY.

gunnery, navigation and boats, besides general regulations and routine of ship-board life.

"All students in one ship will be messaged together, in the general mess, at a cost of about 40 cents a day each. They will berth and mess in a compartment set apart for them. The outfit required to be purchased will consist of a suit of blue dress uniform, two shirts of white dress, two white hats, two or more undershirts of uniform pattern, one blue flannel shirt, one suit of dungarees, a hammock mattress and two mattress covers. The cost of all the articles, which must be obtained on board, will be about \$22. Until funds shall be appropriated for naval reserve purposes all expense incident to this naval training of students must be borne by themselves.

"It must be understood that this is no yachting trip or summer excursion. It will involve hard work, without much regard to the hours of the day or night, for such is the custom on board ship. It is believed that the result to the individual and to the country will more than compensate for the work done and money expended."

At practically every big eastern college the plan has already been endorsed. Princeton remains the exception, the students there taking the view that it would be a good thing for the navy department, but a poor investment for the student.

Presidents Lowell of Harvard and Finley of the College of the City of New York have expressed hearty approval. Professor Lowell being one of those responsible for putting it on foot.

Chancellor Brown of New York university thinks "it ought to be possible to make such an arrangement extremely valuable to the students who should avail themselves of it."

INVENTS FOLDING WING AEROPLANE

Englishman to Build New Type In This Country.

New York.—Garnet Holmes, an electrical engineer of London, who is visiting this country, announces that he has completed and flown successfully a new type of aeroplane, which meets the problem of variable surface as the swallow meets it, and that he is in America to build an ocean flying machine of the same design. The location for its erection is Racine, Wis.

As Mr. Holmes explains his device, it is a monoplane with wings pivoted like the blades of a pair of scissors, flying with pivot end foremost. In full flight the wings close backward, like the swallow's, decreasing resistance. The folding is accomplished by the force of air resistance. In rising and alighting at slow speed, when more sustaining surface is needed, the wings are fully extended by a clutch worked by the motor.

The power plant is an engine built by Mr. Holmes, which, he says, develops forty horsepower, or one horsepower per pound of weight—a single cylinder, double acting gasoline motor. The experimental machine, he says, carried one person only, but the latest model is to carry aviator and two passengers and to be equipped with floats. He is confident that it will achieve a speed of more than 100 miles an hour, equaling that of the lightest and swiftest existing racing monoplanes with rigid wings, which carry no passengers. With the completion of this machine Mr. Holmes believes transatlantic flight more than possible.

CASTRO FACES A TRIPLE ALLIANCE

Venezuela, Colombia and Nicaragua Against Him.

WON'T LET HIM LAND THERE

Fear That if He Once Got Into the Mountains He Might Cause Much Trouble—Still a Hero Among the Indians of the Andes—"General Without an Army."

New York.—A triple alliance of South American governments, each of which has pledged its entire naval force to keep Cipriano Castro out of Venezuela, has been formed, according to South American agents stationed here. The governments are said to be Venezuela, Colombia and Nicaragua, each of which in its turn has frequently felt the disturbing hand of revolutionists and is said at present to want peace much more than any visit from Castro and an army such as it might be possible for him to recruit.

Francisco Escobar, consul general of Colombia, told about the plans being

CIPRIANO CASTRO.

made by his government to keep Castro away from the neighboring state of Venezuela.

"We have three naval vessels out on patrol," said Mr. Escobar, "to see that Colombia's coast is not invaded by a Castro force. They are the cruiser Cartagena, which has been recently overhauled and prepared for a war, and the gunboat Pinson and a companion vessel whose name I cannot recall."

"Not only are these preparations being made at sea, but on land our government is equally determined to afford no refuge for Castro and his plotters. Every preparation has been made to seize him immediately upon landing should he slip past the naval guards. Should Castro elude both the naval vessels and the coast guards and escape into the mountains he would become a formidable problem, for our neighboring state is not for ourselves."

The plan of the Castro forces, according to a version of the story concerning his revolutionary designs, is to land his men at the town of Santa Marta, in Colombia, or some spot within marching distance of that town and assemble there to recruit men from the Andes.

Castro was born in the Andes, and it is generally reported that he is still a great hero among the Indians of the mountains and the men of mixed blood who live among Indians and share their prestige as fighters.

The town of Santa Marta is only a few miles from the Venezuelan border, and the foothills of the Andean range rise behind it. Castro's army, it is held, could easily retreat into the Andes if pursued and could there draw to the revolution's standard all of the impetuous mountaineers who are only half civilized and have no comprehension of any method of changing presidents other than an open revolution.

A rumor to the effect that Castro was planning to appeal to the Nicaraguans for support under the title of honorary commander of the Nicaraguan army, which was bestowed upon him while Zelaya was president, was called to the attention of Humberto Pasos, consul general of Nicaragua.

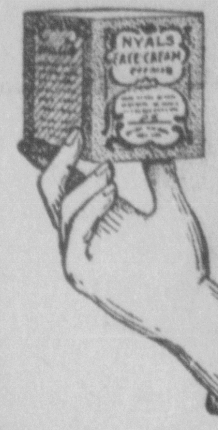

"Castro is a general without any army," said Mr. Pasos, "and we are not likely to give him any." Mr. Pasos said that his country was acting like Colombia to keep Castro out of the country and prevent his stirring up trouble on South American soil. Officials of Colombia and Nicaragua, it is understood, will attempt to keep General Hernandez, former minister from Venezuela out of their territory for fear that once established near Venezuela he will join any movement inaugurated by Castro for the overthrow of the government. General Hernandez has said, however, that he would never make an alliance with Castro although they were both opposed to the present Venezuelan government.

EASTER WEEK AT THE RIVER JORDAN

Next to a pilgrimage to Jerusalem, the water from the River Jordan is one of the greatest things the simple-minded religious peasants of Russia, Greece, Bulgaria and Turkey wish for. Thousands of devoted pilgrims go to this holy river in Easter week in order to bathe in the stream that they may be washed of their sin. Every pilgrim to the River Jordan fills a bottle with the sacred water so that those at home may be purified.

EASTER CELEBRATED IN THE CHURCHES

The resurrection day, with its wonderful significance to the world, was celebrated in joyous paens, in eloquent and beautiful word pictures and in a wealth of Easter bloom in the churches throughout our city Sunday.

After the radiant sunshine of Saturday, which prophesied an unusual promenade of Easter bonnets, it was generally disappointing to find the Easter dawn ushered in with dull roars of thunder and a deluge of rain. But, as if unwilling to darken the brightness of the resurrection day before the hour for church services the rain had ceased and little rifts of sunshine broke through the clouds. The remainder of the day proved balmy and spring-like and everybody was out enjoying the Easter spirit.

The attendance at all the churches proved record-breaking. With the exception of Grace church where the deep interest of the revival meetings prevented special Easter services, the pulpits of the city were turned over to the feast of the resurrection.

The decorations throughout all the churches were marvelously lavish and beautiful, with the stately ascension lily and white blossoms predominating, and against their purity, vivid tints and garlands of green in effective arrangement.

It was altogether a day of joyousness, yet touched with unusual solemnity by the revival spirit which seemed to rise as if impelled by the inspiration of the first Easter morn.

AT THE PRESBYTERIAN CHURCH. The Sunday morning service at the Presbyterian church was one of the most impressive in its history.

Against the background of Easter

radiance which almost screened the pulpit the pastor, Rev. W. I. Campbell and elders grouped to receive into active church membership the Easter class, to administer the ordinance of baptism and to administer the sacrament of the Lord's Supper.

Fifty-nine were received into the church, a little over half from the Sunday school, which has had under instruction a special class. There was also a good representation of heads of families and their wives.

One feature of more than usual interest was the communing together for the first time of four generations, great grand-parents, grand-parents, parents and children seated in one pew, Mr. and Mrs. Frank Reif, Mr. and Mrs. Oscar M. McLellan, Mr. and Mrs. W. O. Deheart and their children.

The morning service was a beautiful tribute to Rev. Campbell, who has only one more Sunday here.

A special Easter program had been given by the Sunday school pupils under the direction of Supt. Ray F. Zander, before the church service.

The evening song service was splendidly rendered by a full choir, under the direction of Mrs. Lulu H. Robinson. Mrs. Wert Shoop, choir-leader, had begun the training of the choir for an Easter Cantata, "The Resurrection Hope", Carrie B. Adams, but was taken ill a week ago, and Mrs. Robinson, choir leader for so many years, completed the work with great efficiency.

It was a beautiful Cantata, breathing the Easter spirit in melodies, now plaintive, now joyous, but always full of beauty. The white robed choir sang with excellent interpreta-

tion and expression and the choruses moved to the closing burst of praise smoothly.

The orchestral support, furnished by Messrs. Odd Ott, Elmer Zimmerman, cornetists; Miss Mazie Kessler, Mr. Carey Howland, violinists, was very good.

Taking the solo parts effectively were a quartet of artists, soprano, Miss Jessie Leavell; alto, Mrs. Arthur Burgett; baritone, Mr. Bowman; tenor, Mr. Kibbler.

The church felt especially indebted to Miss Leavell, who came over from Bloomingburg to assist in the Cantata. Miss Leavell not only possesses a sweet and clear soprano, but sings with unusual musical intelligence and her style is very natural and pleasing. Mr. Bowman, also a new member, was very generous with his fine baritone, which added greatly to both the solo work and the choruses.

Dr. L. P. Howell and Mr. Howard Allen, former members of the choir, gave valuable aid to the tenors.

Throughout the entire day Mrs. Lillie G. Davis, organist, fully responded to the very difficult demands made upon her and both in solos and accompanists did beautiful work.

FIRST BAPTIST CHURCH.

Introducing a pleasing innovation the First Baptist church held a glorious service of song at the usual hour of the morning service. It was conceded to be one of the finest services ever given in the church. A full choir rendered triumphant Easter anthems ably under the direction of Miss Elizabeth Sheen, chorister. A beautiful quartet was sung by Dr. L. P. Howell, Messrs. Horace Ireland, Hicks and Burch, and Miss Sheen sang an Easter solo, her contralto very sweet.

By special request Miss Senneth Kellough, a talented pianist, played the Voluntary and Offertory, the church pianist, Mrs. J. Howard Hicks, playing the accompaniments.

Rev. A. W. West, pastor, delivered the Easter sermon in the evening.

CHRISTIAN CHURCH.

The Easter services at the Church of Christ were notably full of interest.

The Sunday school children, under Supt. Snider, put on a pretty Easter program in the morning. Mrs. Herbert Campbell and Miss Mabel Jones adding a pleasing vocal duet.

Mr. J. W. Darby, of McArthur, preached an interesting sermon on "David Livingston".

A day that was felt to be largely fruitful for good was concluded with a very pretty Cantata, "The Message of Light", given by the Junior Endeavor Society in the evening, Miss Della Cartwright in charge.

The anthems were very well rendered and the special numbers a quartet, Mrs. Campbell, Miss Jones, Messrs. Melbourne Hostetler, Clifford Irvin, duets by Misses Jennie Williams, Florence Michael, and Misses Amy Keir and Hazel Michael, solo, little Velina Davis.

WESLEY CHAPEL.

At half past two o'clock the children of Wesley Chapel Sunday school gave a beautiful Easter service of songs and drills. The primary children were particularly cunning, and were splendidly trained, for which the committee received thanks.

A very attractive feature was the singing of Mr. Peter Brown's young niece, Vasele Mangle. The little girl appeared in her native Greek costume and her pretty singing was unique.

ST. COLMAN'S.

Easter is always a glad festival in St. Colman's church and the services of Sunday were wonderfully beautiful.

The altars were magnificent, with a profusion of Easter lilies, carnations and a blaze of electric lights.

There were two masses, one at 7:30 and one at 9:30, Rev. Father Fogarty preaching fine sermons on "The Resurrection" at both.

The music was lovely, the High mass sung by the usual choir and the "Regina Coele" by the Junior choir.

The church was crowded at both masses.

Wichita, Kan.—George K. Simkins, seventy years old, and Mrs. Jane Auld, sixty-two years old, were married here after a brief courtship. They went to church a few weeks ago and while waiting for the janitor to open the doors fell into conversation. They walked home together after services, and the acquaintance ended in marriage. Both are wealthy.

The Strollers In "The Clean Up"

"The Clean-Up" to be presented here at The Empire Opera House Friday night by the Strollers of Ohio State university will have the same complete production that will be seen two weeks later at the Southern theatre in Columbus. Formerly the Stroller plays were given in the University chapel, but lately the popularity and dramatic strength of the club has grown to such an extent that the crowds were too large and the transfer was made to a down-town theatre. That the change has proven a popular one has been evidenced by the necessity of the organization to present two evenings and a matinee performance each year.

Everything in connection with the play is on the same order as that of a professional production. Professional methods are in use entirely. Formerly it was thought that amateurs would be unable to handle the work as successfully under the professional methods, but since Mr. Robbins has had charge of the Strollers he has demonstrated the feasibility of the change. The Strollers and the Princeton, Yale and University of Pennsylvania dramatic clubs are practically the only ones in the country now following this line of rehearsing.

Nearly thirty people are carried in the company. These represent almost every one of the colleges in the curriculum of the university. Lawyers, engineers, teachers, botanists, agriculturists, veterinarians, journalists, horticulturists, astronomers, ceramists and architects are represented by at least one member of

the cast. Mr. Robbins, who wrote the play is a former student of the university in the College of Architecture.

Tickets now on sale at Baldwin's Drug store, 35c, 50c and 75c.

Oil Floods a Coal Mine.

Washington, Pa.—A fall of slate broke three eight-inch crude oil mains near here and flooded the colliery of the Guck Coal Company. There were 300 miners below, and they had a thrilling escape from a lake of oil, and finally reached safety through an old air shaft after the oil had almost submerged some of them.

SYMPTOMS OF CONSUMPTION.

Yield to Vinol.

The medical profession does not believe that consumption is inherited, but a person may inherit a weakness or tendency to that disease.

A prominent citizen of Evansville, Ind., writes: "I was ill for five months with a pulmonary trouble, and had the best of doctors; I had hemorrhages and was in a very bad way. Through the advice of a friend I tried Vinol, and I feel that it saved my life. It is all you recommend it to be. I believe it is the greatest medicine on earth. I have advised others to try Vinol, and they have had the same results." (Name furnished on request.)

Vinol soothes and heals the inflamed surfaces and allays the cough. Vinol creates an appetite, strengthens the digestive organs and gives the patient strength to throw off incipient pulmonary diseases.

Try a bottle of Vinol with the understanding that your money will be returned if it does not help you. Blackmer & Tanquary, Druggists, Washington C. H., Ohio.

JOHNSON RESTORES THE EARNED RUN.

New York, March 24.—President Johnson of the American League has issued instructions to his official scorers to charge pitchers with "earned runs" during the coming season. For many years this method of keeping track of pitchers' effectiveness was in vogue, but was dropped for reasons unknown. The new "earned run" must be charged against the pitcher every time a player completes a circuit by the aid of base hits, sacrifice hits, stolen bases, base on balls, hit batsmen, wild pitches or balks, before chances to retire the opposing team have been offered and missed.

Marshall Raps Carnegie Libraries.

Springfield, Mass., March 24.—Four thousand men heard Vice President Thomas R. Marshall speak in Springfield's new municipal auditorium on the subject, "It is More Blessed to Give Than to Receive." The vice president denounced Carnegie libraries on the ground that they were gifts of predatory wealth, and in this declaration was heartily applauded by the big audience. The speaker contended that in this particular instance it was not more blessed to give than to receive.

Anti-Suffragists' New Scheme to Offset Votes For Women Crusade.

Washington, March 24.—The anti-suffragists, who were conspicuous in Washington just prior to inauguration by their campaign of opposition to the suffrage "hikers" and to the suffrage parade, announced another move to offset the woman suffrage movement. Prizes of \$100 each will be given to the city and country girls who submit the best essays demonstrating why women should not have the vote. Three well-known literary women of New York will act as judges in the contest. The essays will be received by the essay committee, National Association Opposed to Woman Suffrage, at 35 West Twenty-ninth street, New York.

Hon. A. P. Sandles Will Speak in This County Wednesday, March 26

Will Address Farmers at Bloomington in Morning, at Jeffersonville in Afternoon and in This City in the Evening. Talks on Free Trips to Washington—Farmers Urged to Attend.

State Secretary of Agriculture, Hon. A. P. Sandles, will again visit this city and county Wednesday of this week, making speeches in this city, Bloomington and Jeffersonville in the interests of the Boys' Corn Growing Contest and free trip to Washington, D. C.

Secretary Sandles will arrive in this city on the 8:23 train, and will be met by a committee and they will proceed to Bloomington where Mr. Sandles will speak to the farmers and citizens in general. From Bloomington they will go to Jeffersonville where he will again address the citizens on the Boys' Corn Growing contest. He will speak at Jeffersonville early in the afternoon.

Returning to this city in the evening he will address the farmers and other citizens at the Y. M. C. A. auditorium and every one interested in the corn growing contests is urged to attend.

Other counties throughout the state have entered into the contests with a vim that is surprising, and in this county which ranks at the very fore-front with her sister counties, it is expected to send several boys on the trip to Washington next fall.

And the contest is not open alone to boys, but other contests have been arranged and together with the Boys' Corn Growing contest, will be thoroughly explained by Mr. Sandles in his various addresses in this county Wednesday.

Always a popular speaker and always boosting for better agriculture, Mr. Sandles will undoubtedly be greeted by large crowds of citizens at each place where he speaks. The addresses will be free to all.

Mr. Sandles' visit here is expected to add new interest to the already deep interest manifested in the free trip to Washington, and those behind the movement are desirous of making Fayette one of the banner counties in the contests this year.

Gives Old Tariff Issues The Right Of Way

GIVING DEEP STUDY TO TARIFF REVISION

President May Uphold Those Who Favor Moderate Cuts.

Washington, March 24. — President Wilson is now giving deep study to the tariff, with a view of communicating views on the subject to the leaders in congress. It is the understanding that the president will in the main uphold those Democrats who are favoring a moderate revision of the tariff as opposed to those who advocate sharp cuts in the rates in every schedule of the law and ample amplification of the free list. It is understood that a copy of the tentative draft of the tariff bill prepared by Chairman Underwood and his associates will be placed in the hands of the president this week.

It has become known that President Wilson will in all probability make some strong suggestions relative to the agricultural schedules.

The income tax feature of the new tariff law is proving troublesome in committee. The lines of division on this proposal are clearly marked. One group in the committee is advocating a graduated tax that will hit big incomes hard. Another group insists on a flat rate for all incomes the minimum to be \$1,000.

Morgan Attends Easter Service.

Rome, March 24.—J. P. Morgan and the other members of his party attended the Easter Sunday service at the American Protestant Episcopal church here. The church was crowded with Americans.

A MESSAGE TO RAILROAD MEN

E. S. Bacon, 11 Bath St., Bath, Me. sends out this warning to railroaders everywhere. "My work as conductor caused a chronic inflammation of the kidneys and I was miserable and all played out. I was weak and had dizzy spells, and a friend recommended Foley Kidney Pills. From the day I began taking them, I commenced to regain my strength. The inflammation is gone and I feel better now than I have in twenty years." Try them. Blackmer & Tanquary.

A Vast Section Of The West Is Storm Wrecked

TERRIFIC STORMS SWEEP CENTRAL WEST

Heavy Loss of Life In Nebraska, Indiana and Other States.

Chicago, March 24.—A terrific wind-storm, causing widespread destruction and loss of life and practically wrecking the already demoralized telegraph service, raged over the central west. Reports from Nebraska, Kansas, Iowa and Indiana indicate heavy damage, but owing to the wrecking of the telegraph lines the reports are fragmentary and lacking in detail. Twenty are dead in eastern Nebraska and 10 missing and 100 injured.

Omaha, Berlin, Ashland and Yutan, Neb.—the latter towns near Omaha—Marshalltown, Ackley, Woodbine and Carroll, Ia.; Terre Haute, Ind., and Abilene, Kan., are places from which scattering messages carrying the news of grave destruction have been received. The death list at Yutan was placed at 15 and the injured at 50. Late bulletins report that half Omaha was swept by a tornado. All wires were down, and Berlin, a neighboring town, was said to be in flames. The message was received over a single long-distance telephone wire which worked at intervals.

Terre Haute, Ind., suffered severely. Scores of persons were injured, an unknown number were overwhelmed in the ruins of houses blown down by the wind, and many fires were started in different parts of the city. Seven bodies were recovered.

The loss of life and property in Iowa was less severe. Duststorms, rain, hail and tremendous electrical disturbances prevailed over Kansas and Nebraska. Where railroad service was impeded motorcycles were pressed into service and surgeons and supplies were rushed to the wrecked towns at the best speed possible over the washed-out roads.

Mayor Dahlman of Omaha has asked the governor to call out the militia to prevent looting.

very serious for any but men of large means and leisure, and the diplomatic service is necessarily hampered."

This second part of the statement carries the first official announcement of the president's impatience at the accepted belief that only men of wealth can afford to accept important diplomatic appointments. It has been known for some time that Mr. Wilson did not like to feel that his list of available men to do the important work of the American foreign service was limited to men of large means.

President Wilson's policy thus far has been to pick his men without regard to their wealth. It is believed he will adhere to this policy.

Attorney Newell Makes Confession.

New York, March 24. — Edward J. Newell, the lawyer who, at the instance of the police and with their assistance, arranged the plan to have George A. Sipp kept out of town when the hotel man was wanted by the district attorney as a witness against Policeman Eugene Fox, and who handled the money raised by Inspector Sweeney, Captain Thomas W. Walsh and others for this purpose, made a confession of his part in the affair to District Attorney Whitman. He will be a witness for the state.

David F. Houston, Secretary of Agriculture, Is Recognized Expert on Farming Affairs.

Photo copyright, 1913, by American Press Association.

David Franklin Houston, secretary of agriculture, is a recognized expert in economics and sociological affairs. He comes by his knowledge through years of academic training and as professor during most of his active career. It is related that as instructor in the school of political science of the University of Texas during the campaign of 1896 he vigorously expounded to his young men the belief that Bryan's theories were wrong. From all accounts he and Mr. Bryan got along swimmingly nowadays regardless of the 1896 experience. Above is a photograph of Mr. Houston sitting in his first office as secretary of agriculture.

Chief Executive May Come To Capital Of Ohio

PRESIDENT WILSON WILL LIKELY ATTEND

National Good Roads Congress Will Meet In Ohio.

Columbus, O., March 24.—A meeting of the committee having the arrangement of the program and the details of the National Rural Life and Market Roads Congress, to be held in Ohio the coming year, will be held in Columbus shortly, perhaps during the present week. This committee consists of D. R. Hanna, Cleveland chairman; Jesse Taylor, Jamestown, secretary; Archibald H. Huston, Columbus; M. Edith Campbell, Cincinnati; Senator J. I. Hudson and Representative W. A. Hite.

At the meeting details for the congress will be tentatively agreed upon, and the time and place for the meeting determined. Another matter to be worked out at the meeting of this committee will be the perfecting of plans for another state congress similar to the recent one, although on a larger scale, to take place in Columbus next year.

President Wilson will probably be one of the participants in the national meeting. An invitation is to be sent to him, accompanied by an urgent request that he come. "As the congress will have the distinction of being the first of its kind ever held, not only in the United States but the world, it is believed he will accept. Invitations are also to be sent to the secretary of agriculture and secretary of the interior, as these are the two governmental departments most closely allied with the work for which the congress is to be called.

A COLD, LA GRIPPE, THEN PNEUMONIA

Is too often the fatal sequence. La Grippe coughs hang on, weaken the system, and lower the vital resistance. R. G. Collins, Postmaster, Barnegat, N. J. says: "I was troubled with a severe La Grippe cough and was completely exhausted after each fit of violent coughing. Before I had taken one half of a bottle of Foley's Honey and Tar Compound, the coughing spells had entirely ceased. I wish to say it can't be beat. All others are imitations." Blackmer & Tanquary.

MAPLE SYRUP SHORT

Vermont Syrup and Sugarmakers Say the Season Is a Failure.

Boston, March 24. — Sad tidings have come out of the north. There is a shortage of maple sugar this year and the lovers of buckwheats and syrup are trembling. At Bellows Falls, Vt., syrup and sugarmakers in that locality are a disappointed lot of men. The season is a failure and nowhere near the usual amount of the Vermont product will go to lovers of the delicacy this spring. A few owners of lots tapped their trees the week before last and others began work last week. Wednesday showed a good run of sap, but mild and rainy weather set in and the sap stopped running.

Hands Off Little Shrimp

London, March 24.—Austria delivered at Cetinje a thinly veiled ultimatum to Montenegro, threatening that if the civil population of Scutari is not allowed to leave the city the dual monarchy will take coercive measures for compliance with its wishes. Italy took similar action, but without expressing any threat, and Russia, the friend of Montenegro, advised the Montenegrin government to accede to Austria's demand.

discuss that phase of the case. He pointed out that the impression has gone abroad that Admiral Eaton was killed by white powdered arsenic administered in absolutely pure form. "This," Mr. Barker declared, "is a mistaken impression. There may have been some other substance for it." Continuing, he said that a certain kind of rat poison might have been administered, with the result that a report of a chemical analysis would merely give white powdered arsenic as the cause of death. He said that the rat poison he referred to consisted of from 75 to 90 per cent arsenic and the remainder powdered charcoal. Given in a solution, the charcoal would perhaps disappear.

Mrs. Eaton, the accused widow, passed the day reading and writing and taking exercise. She is awaiting the outcome of the grand jury proceedings without evident alarm.
